AI Engineer & Data Expert (Analytics & Big Data)

Expert in AI Engineering and Data Analysis, specializing in transforming complex datasets into strategic insights for business decision-making. Founder of the Strive ecosystem, I developed Echo and the Yawo chatbot, powered by my custom-trained model, Strive-AI v0.7 2B.

Proficient in Big Data tools (Spark, Hadoop, Kafka, BigQuery) and GCP environments, I design innovative, high-impact solutions for FinTech, AgriTech, and EdTech in Togo. My approach combines technical rigor with an entrepreneurial vision to maximize business value through data.

PROFESSIONAL EXPERIENCE

• FEBRUARY 2025 - MAY 2026

Strive
Lomé, Togo

CO-FOUNDER & CEO

- Supervision and development of AI projects (Yawo, Agriflow AI)
- Development of AI digital solutions
- Development project management
- Deployment of TTS model, text2text, matching, Top-K, computer vision with TF-Lite

• DECEMBER 2025 - JANUARY 2026

Codveda Overseas Solutions
Remote, inde

MACHINE LEARNING INTERN

- Model Building & Evaluation: Developed and assessed three core ML models ranging from basic to advanced levels to enhance automation processes.
- Data Preprocessing: Orchestrated end-to-end data preparation, including missing value handling, categorical encoding, and feature standardization/normalization.
- Stack: Python, Pandas, Scikit-learn, TensorFlow/Keras, Matplotlib, Seaborn, Excel.

• JULY 2024 - JANUARY 2025

HubCity - Woelab(s)
Lomé, Togo

FAB MANAGER

- Training manager and electronics expert
- Focus Woebot Startup
- Team management
- IoT project management
- Development of work environments and collaborative tools

• APRIL - JUNE 2024

ARAo
Lomé, Togo

IT MANAGER & WEB DEVELOPER

- Supervision of the association's digital transformation project.
- Development of the architecture of the association's information system

• AUGUST - NOVEMBER 2023

Deneer SARL
Lomé, Togo

WEB & MOBILE DEVELOPMENT INTERN

- Participation in the design and implementation of web platforms.
- Web development for IoT solutions

EDUCATIONAL BACKGROUND

• 2023 - 2026

ESGIS Togo
Lomé, Togo

BACHELOR'S DEGREE IN COMPUTER SCIENCE AI & BIG DATA

- Mathematics applied to data science (linear algebra, statistics/probability, etc.)
- Data science, machine learning, Deep learning, Data Visualization, kafka, GCP, Excel
- Study and design of databases
- information system design
- Web development in Angular, Spring Boot, PHP, Java
- Java and Python application development

• 2020 - 2023

CEFOP-ASA
Lomé, Togo

HIGH SCHOOL DIPLOMA

- Technical Baccalaureate
- Electronics Specialization

PROJECT

• YAWO

YAWO — AFRICAN TTS VOICE MODEL DEMONSTRATING LOCALLY CONTEXTUALIZED SPEECH SYNTHESIS

• SKOLLAB

SKOLLAB — COLLABORATION PLATFORM BETWEEN BRANDS AND LOCAL CONTENT CREATORS

• AGRIFLOW

AGRIFLOW — DATA-DRIVEN AND AI-POWERED AGRITECH PLATFORM FOR SMART FARM MANAGEMENT.

CERTIFICATIONS

UDEMY

- Mastering AI on AWS
- AWS Certified AI Practitioner
- Python pour le Deep Learning & le Machine Learning : A à

LANGUAGES

French
English B2

SKILLS

- **Languages** : Python, JavaScript, PHP, Dart
- **Frameworks & Tools** : Flutter, React, Node.js, Firebase, Supabase, FastAPI, TensorFlow, scikit-learn, MySQL
- IA & Data** : Machine Learning, NLP, TTS, Recommendation, Data Visualization
- DevOps & Cloud** : AWS, Ubuntu Server, Raspberry Pi
